

We can send money for food and medicines to help the poor people in the world. That is a good way to show God's love.

When children help other children they send a special message. They are saying "We want to share some of the good things we have with you."

## Children Helping Children

This is the motto of the Missionary Children Society. We help you to help other children throughout the world.

Can you think of a way of helping the poor children of the world?

Perhaps your class could help children to have a better life. It would make them happy to know they have friends looking after them.

If you want to know more, your teacher can contact MISSIO Scotland for more information about our projects helping children.

What are the Missions anyway?

The Church sends people all over the world to tell people the Good News that Jesus brought us. The Church has priests, nuns, brothers and lay people who can go to far away places to spread the News.

Jesus told the Apostles that we should tell the whole world. He didn't just mean the Apostles. He meant us as well.

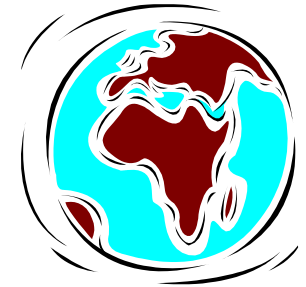

He knew we could not all go away but meant us all to work together to spread His love.

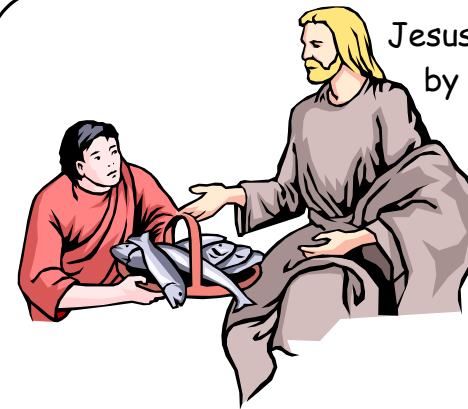

Saint Theresa was a nun in France. She could not go to the missions but prayed very hard for them. She became the patron saint of the missions. She showed us how we can all help by making little sacrifices.

The missions are in the poorest parts of the world like Africa, Asia, India and South America. Most of the money the Missionary Children Society sends goes to Africa.

Even in rich countries there are people who do not know about the Good News from Jesus. We can help them by showing a good example. We can help the poor people in the mission countries by sending money to get them food and clothes.

Jesus taught his message by feeding the poor and helping the sick. When we help the poor people in the mission countries we show them how much Jesus loves them.

Just like Saint Theresa, we can pray for the missionaries every day. Like her we can give up something small to help others.
